PROFILE

I am person, responsible with their works during working hours. My happiest moment in life is when i make the picture in my mind into reality. I am computer Science major third year student with some experience in freelancing.

EDUCATION

● **High School**
National School Of Sciences
2016-2018

● **Bachelor in Computer Science and IT**
National College Of Computer Studies
2018-2022

SKILLS

- Node
- React JS
- Angular
- Firebase
- Mongo DB
- Python

EXPERIENCE

● Freelance Web Developer

From 2019 to present | Fiverr

Working as a freelancer i had a lot of responsibilty in my head. So this gave me first hand experience of marketing, communication and development driven with direct client feedback.

PROJECTS

Beautiful List

It is a webapp which scrapes the official Craigslist website and display the result in clean format as queried by the user. It is made by using Django as backend and beautifulsoup4 for scraping.

Weather Forecasting Web App

It is a responsive webapp which displays the weather of any place in beautiful format. It is made by using Django as a backend and open weather APi to fetch the weather data.

A Star Algorithm Visualizer

It is a implemantion of A* Algorithm using python paired with pygame, which visualizes how the algorithm finds the path of given path finding problem. I made this during my 2nd year of Computer Science for DS and Algo project.

Writerr Dashboard UI Design

It is a miinimalist and modern dashboard UI of blog website. And it is made by using React Js as front end.
